WORK EXPERIENCE

- Laravel Developer – SNM TechCraft Innovation, Ahmedabad | 03/2023- Present**

I also have 1 year and 5 months of experience in PHP development, including hands-on experience with the Laravel framework, which enhanced my expertise in server-side scripting and code deployments, RESTful APIs, and MySQL database management.

- Sr Technical Executive Engineer – CAMEX WELLNESS LIMITED, Ahmedabad | 08/2018 -02/2023**

I handled the design, testing, and troubleshooting of home healthcare physiotherapy products, ensuring they met quality and performance standards.

- Production Technician Engineer – Mantra Softech India Pvt Ltd, Ahmedabad | 03/2017 – 08/2018**

I worked on the production and testing of biometric and RFID-based devices, contributing to smooth manufacturing processes and reliable product output.

- Customer Service Engineer – Tikona Broadband Pvt. Ltd, Ahmedabad | 07/2016 – 03/2017**

I provided technical support and resolved customer issues related to broadband internet services, ensuring high levels of client satisfaction.

SKILLS

- Backend Development:** Laravel (Eloquent ORM, Middleware, Service Container, Validation, Security, Role-Based Access Control, Real-time Chat Implementation), PHP, SMS and Firebase Integration, Hostinger deployment.
- Web Services & API:** RESTful API, JSON Web Token (JWT), API development in Laravel, API Authentication.
- Frontend Development:** HTML, CSS, Bootstrap, Blade templating engine (Laravel).

ACADEMIC PROJECTS

Canyo Health (In Development)

Role: Laravel Developer

- Developed a multi-role system with Admin, CBO, BDM, BDE, and Partner, including role-based access and real-time activity tracking.
- Implemented partner investment management modules, tracking investment amounts, durations, and notifications for installments.
- Enabled Admin to monitor all activities across roles and track workflow efficiently.
- Utilized Laravel, PHP, MySQL, Bootstrap, Blade templating engine (Laravel).
- Live Web Admin: <https://snmtc.in/canyo/admin>
- Live App(Play Store): App is under development using Flutter for frontend, integrated with Laravel backend.

DRVHTBSW

Role: Laravel Developer

- Developed a health tracking platform for women to record and monitor thyroid-related medical data.
- Built modules for symptom logging, treatment tracking, and medical record management to support continuous care.
- Integrated modules for doctor's research data management and patient consent/declaration handling to ensure transparency and compliance.
- Built using Laravel, PHP, MySQL, HTML/CSS, Blade templating engine (Laravel).
- Live Web Admin: <https://drvhtbsw.in/>
- Live App(Play Store): Delivered mobile application (with same core functionalities as the web platform), currently under Google Play Internal Testing as per compliance policies.

Angreji Grammar

Role: Laravel Developer

- Developed a subscription-based English grammar learning system with admin panel for dynamic Q&A management.
- Built modules to display user progress, achievements, and performance tracking within the mobile app.
- Integrated subscription control with seamless web-admin and mobile app sync for real-time updates.
- Built using Laravel, PHP, MySQL, HTML/CSS, Blade templating engine (Laravel).
- Live Web Admin: <https://snmtc.in/grammer/admin>
- Live App(Play Store): <https://play.google.com/store/apps/details?id=com.ayanbanglawala1.AngreGGrammar>.

BaalAngan

Role: Laravel Developer

- Developed a child care management system tailored for Anganwadi centers with **role-based access** for Admin, HOD, and Teacher.
- Implemented modules for attendance tracking, health record management, and fund utilization monitoring.
- Built using Laravel, PHP, MySQL, Bootstrap, Blade templating engine (Laravel). with a responsive and user-friendly interface.
- Project delivered as a third-party solution, with source code handed over to the client.

Note: Currently under internal testing and UAT (User Acceptance Testing) for production deployment.

Heta's Boutique

Role: Laravel Developer

- Developed a branch-wise boutique management system for maintaining collections and client measurements.
- Implemented secure client measurement management with PDF export and third-party tailor access.
- Utilized Laravel, PHP, MySQL, Bootstrap, Blade templating engine (Laravel).
- Live Web Admin: <https://hetasboutique.in/admin>

Crystalline Ceramic

Role: Laravel Developer

- Developed an e-commerce-style web app with admin panel for managing products, customers, orders, and inventory
- Enabled real-time stock updates and detailed sales reports
- Utilized Laravel, PHP, MySQL (phpMyAdmin), HTML/CSS, Blade templating engine (Laravel).
- Live Web Admin: <https://crystallineceramic.in/admin>
- Live App (Play Store): https://play.google.com/store/apps/details?id=com.snm.myshop_app
